Subject: Grantham – Public Water System: Grey Ledges (EPA #0952020)

Dear Mr. Thompson:

On September 2, 2003, the Department of Environmental Services (“DES”) issued Letter of Deficiency #WSEB 03-242 (“LOD”) to the subject water system. The LOD was issued for Standard Maximum Contaminant Level (MCL) violations for total coliform bacteria in June 2002 and August 2003. A copy of the LOD is enclosed for your review.

Please note that the deadline for the following requested action established in the LOD has passed:

LOD Requested Action #3: By October 14, 2003, submit to DES for review and approval an implementation schedule which identifies specific dates by which steps to correct the bacteria contamination will be accomplished.

As the water system continues to have indications of total coliform bacteria still present (results received by WSEB on October 20, 2003), please respond to the overdue item listed above by **November 4, 2003**.

If you have any questions, please contact me by phone at (603) 271-2854 or by email at aleach@des.state.nh.us.

Sincerely,

COPY

Alan Leach
